TRAINING COURSE
TECHNIQUE OF
THE MARBLE STUCCO

WITH
MAURO PATRINI
Restorer, Artist, Trainer

Thiene Villa Fabris
September 28 - October 2, 2020

ASSOCIAZIONE
VILLA FABRIS
THIENE • ITALIA

The Master
MAURO PATRINI
Restorer, Artist,
Trainer

Born in 1965, he developed a passion for arts and crafts since the 80's. In 1993 he gets a vocational certificate in Marble Stucco and Scagliola at the CFP in

Cremona and he attends practical courses on different techniques such as Marmorino, Marble Stucco, Moulding and Fresco at the European Centre of Venice, specializing in Scagliola.

As a craftsman, he is entrusted with important commissions both in Italy and abroad: he carries out impressive decorations for New York architects in West Palm Beach; he performs restoration works of the floor of the Coffee House in the Quirinale Palace, of the crest of the Lancellotti House at the Christie's auction house and of the scagliola decorations of the tower of the Moorish greenhouse of Villa Torlonia. He worked in several working sites, such as Palazzo Carmi in Parma, the Tiepolo's frescoes in the Church of the Sts. Faustino and Giovita in Brescia along with Renato Gianguialano. As a trainer he teaches Marble Stucco techniques at the European Centre for Heritage Crafts and Professions in Venice.

He is able to turn the craft technique into a mean of expression; mastering manual abilities in the workshop, he creates art varying from minimalist, simple and concise shapes to the complexity of the monochrome. He thinks of the old know-how to be innovative.

Mauro teaches at the Fondazione Villa Fabris in Thiene, firmly believing in the need to pass on those craft fundamentals that have made Italy the pride and joy of culture all over the world in the past and in the opportunity to create a new professionalism from the traditions in a time that seems to give no perspectives in the field.

The craftsman is the keeper of the ancient know-how and skills, he is the art worker who needs no academies or artistic license, his ability derives from his knowledge, from his experience, from what he creates, thinks of, expresses and arouses.

TARGET AUDIENCE

The training course aims at restorers, artisans, freelancers and students.

The teacher will make the appropriate distinctions based on the individual knowledge and skills of the individual participants.

OBJECTIVES OF THE COURSE

Marbled stucco is one of the most striking craft materials used in decoration.

It comes from the hands of skilled artisans who combine gypsum, glue and pigments to create an infinity of fake coloured marbles in a varied range of shades. Further effects can be obtained by merging different marbles or inlay.

The course aims at providing knowledge of materials and mixtures, at the decoration of flat surfaces and columns and at the creation of architectural elements.

TOPICS

Starting from a short historical introduction of the technique and its different applications, materials and tools, mixtures and their application in the different phases of spatula, smoothing and polishing will be dealt with.

The technique of composition and inlay will be also treated.

EDUCATIONAL METHOD

The course consists essentially of practical modules. The teacher explains and performs the different processing steps involving actively the students, promoting interactive communication, creating a feeling of well being, increasing a sense of empathy in the group and enhancing individual specificities.

DURATION

40 training hours.

SCHEDULE

The course starts on **Monday 28th September** at 9 am and ends at 1 pm on **Friday 2th October 2020**, training time from 9 to 13 in the morning and from 2 to 6 in the afternoon.
